Funder Safeguarding Collaborative

The Funder Safeguarding Collaborative (FSC) exists to promote collaboration, listening, and learning among funders and organizations to support and strengthen safeguarding practices globally. The FSC achieves change through three mutually reinforcing strategies: **CONNECT**, **SUPPORT**, and **INVEST**. We **connect** funders to best practice knowledge; provide high-quality expertise to **support** efforts to keep people safe; and we **invest** in evidence-informed initiatives to improve global practices.

Our work is underpinned by our five core values:

- **Safety:** We believe that everyone has the right to feel safe. We take action to ensure that our institutions and the organizations we fund protect people from harm.
- **Listening:** We value the expertise of others and welcome the contributions that diverse voices bring to the conversation.
- **Learning:** We acknowledge what we don't know, value the knowledge that others bring, and commit to continually learning, adapting, and then learning some more.
- **Practicing trust:** We cultivate relationships based on mutual trust and respect. We create spaces where it is safe to ask questions, learn from mistakes, and challenge the status quo.
- **Shifting power:** We actively promote a more equitable system that values and supports the power and knowledge within the organizations we fund and the communities they serve.

The FSC is nested within founding member Global Fund for Children who provide administrative support and technical expertise to develop and grow the Collaborative. Global Fund for Children partners to build a world where all youth are safe, strong, and valued by investing in innovative, locally led organizations, helping them deepen their impact and build their capacity for social change. In addition to Global Fund for Children, the FSC Steering Committee provides oversight and strategic guidance related to the implementation of the FSC's mission.

Consultancy Scope of Work
