APPLICATION PACK – Masculinities Initiative

Senior Programmes Associate

How does it all work?
Global Fund for Children works to build a world where all children and youth are safe, strong, and valued. To that end, we partner with innovative, locally led organisations, helping them deepen their impact and build their capacity for social change. By pairing flexible funding with targeted capacity development services, we help our partners grow stronger and more responsive to challenges on the ground. Since 1997, we have invested more than $44 million in over 700 organisations. Our work advances the rights of children and youth across four focus areas: education, gender equity, youth empowerment, and freedom from violence and exploitation.

You will join a multinational team of caring and committed individuals who believe in investing in bold ideas to help grassroots organisations deepen their impact and advocate for children’s rights. We value courage, excellence, learning, partnership, and inclusion, as well as kindness and passion. Our partners’ visions for change inspire all we do. Feedback and learning inspire us to do better, and we strive to be youth-centred.

What will you be doing?
The Boys and Young Men (BYM) Initiative was a pilot launched by GFC in 2020 to support a new and innovative network of 10 community-based organisations across England focused on working with young people around positive, healthy and expansive masculinities. GFC supported the growth and effectiveness of the cohort through network building, tailored capacity development support and core funding. Initial funding for the project ended in September 2021.

In collaboration with The National Lottery Community Fund, GFC is now looking to launch the second phase of this initiative, with a focus on:

- Expanding our network of organisations working on masculinities - sharing learning and hosting creative and participatory network learning opportunities;
- Increasing youth voice in organisations working in this field and in the public conversations around healthy masculinities;
